

Easy Scan

Document Management Solutions

Looking for a way to get your paper documents intelligently scanned and organized for easy retrieval?

Let Formax help you automate workflow using our award-winning scanning hardware and software products. We have the ideal solution for small businesses that would like to automate scanning jobs.

Easy Scan Solution

Built-in OCR and Barcode reading technology automatically captures and routes documents to unique folders for easy retrieval and storage.

Our trained staff can walk you through the process of setting up an affordable and easy-to-use document management solution that will benefit your entire company.

The Formax Easy-Scan Bundle lets us help you improve your current scanning methods or eliminate the piles of paper found in most offices.
