

LET FORMAX MANAGE YOUR PRINT FLEET SO YOU CAN FOCUS ON RUNNING YOUR BUSINESS.

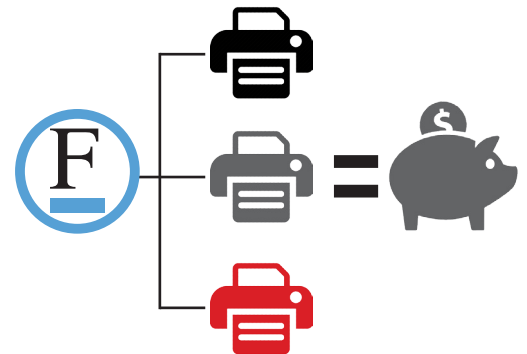

Formax's Managed Print Services Program (MPS) provides a complete print fleet strategy tailored around your business needs. This strategy will allow you to focus on your core business rather than your printer fleet while drastically reducing print costs up to 30%. Most companies are unaware of their total printing costs including maintenance, supplies and service for their printer fleet. The Formax MPS Program measures and manages your total printing to reduce costs and implement controls. MPS can also help your IT staff by allowing them to work on more business-critical projects rather than supporting and maintaining your printers.

BENEFITS OF MANAGED PRINT SERVICES

- Savings of Up to 30% using MPS
- Expert Document Assessment & Recommendation
- Fleet Optimization & Redeployment
- Remote Monitoring & Management
- Expert Support Team to Increase Uptime
- One Invoice for ALL Your Print Devices
- Quarterly or Semi-Annual Strategy Reviews
- Positive Environmental Impact

Let's face it, some things just need to work better in the background. Shifting the burden of managing your document output devices and processes to a team of experts will ensure your print network is working quietly and efficiently while saving you money.

FORMAX DIRECT MPS ADVANTAGE

When you partner with Formax for Managed Print Services you will gain a consultative approach to managed print that is designed around your unique business requirements. A highly trained team of experts will help you minimize print costs and maximize productivity on an ongoing basis. Here's a snapshot of our evaluation process and ongoing consultation:

Learn About Your Company: Everything starts by learning about your company's objectives, requirements and culture.

Printer Inventory: Formax will document your print devices in order to identify all of your assets.

Print Analysis: Utilizing print collection software Formax will be able to analyze your company's actual printing for cost saving analysis.

TCO Analysis: With the print data collected Formax can show you the total cost of ownership of your print fleet and how we can save your business money.

Examine Processes & Workflow: Formax will evaluate your workflow and document processes and suggest ways to create more efficiencies and provide additional controls.

On Going Reviews: Your Formax account management team will meet with you on a regular basis to continually improve print processes and document workflows within your business.

Analyze. Customize. Optimize.
